

Carbon is found in all living things.
Life on earth wouldn't be possible without carbon.

We want to be the Carbon in your Life.

Just as carbon serves as the backbone of biological molecules,
Carbon Nutraceutical aspires to be the backbone of your journey towards the
better health, faster recovery & enhanced performance.

ABOUT US

We are a dynamic company founded in 2020, built on a foundation of ethical business values. Driven by passion and innovation, we take pride in our strong Research and Development team, ensuring every product we create is backed by science and crafted with care.

OUR VISION

To be a global leader in delivering scientifically-backed nutraceutical and FMCG products that enhance health and wellbeing.

To create innovative, research-driven products with uncompromising quality for improving human consumption experiences.

WE ENSURE SAFETY AND POTENCY

ROCK SOURCING

Grade A Shilajit rocks are carefully sourced from elevations above 18,000 feet in the mountains.

EXTRACTION

The rocks are crushed and dissolved in water to separate plant material from rock particles.

FILTRATION

The mixture is filtered to remove dust and sediment.

SUN DRYING

Our Shilajit is dried naturally using sunlight, forming a thicker resin.

TESTING

After multiple rounds of filtration and sun drying, the Shilajit undergoes expert inspection and lab testing for safety.
